★ Projects

Mapping Netflix Movie Data | 05.2021. – 06.2021.
This application uses Neural Networks and Topological Mapping technologies to recommend Netflix movies to users based on the ratings of movies they and others watched. The project was done by a two-man team in Python.
https://github.com/wesely1996/mapper_algoritam_sa_Netflix_podatcima
Chicken Invaders (Copy game) | 10.2020. – 01.2021.
This project was done in a team of 5 members where each person was delegated tasks in online meetings held every other day, with myself taking the lead role in the project. The project was done in Qt using the C++ language.
